**Carson City builder selected to build new medical clinic**

Carson City, NV – March, 2011 – Shaheen Beauchamp Builders LLC has been selected to construct a new OB/GYN and Pediatric Clinic for Carson Medical Group.

Carson Medical Group, the largest independent medical group in Carson City, awarded the contract to construct their new 21,000 square foot medical clinic, adjacent to the Carson Tahoe Regional Medical Center campus, to Shaheen Beauchamp Builders LLC. The building, located at 1465 Medical Parkway will consolidate Carson Medical Groups OB/GYN and Pediatric clinics into one location. The new building will more than double the amount of square footage that currently houses the CMG Pediatric clinic located on Mountain Street and bring the Pediatric clinic to the Carson Tahoe Regional Medical Center campus.

The new state of the art building has been designed to house the two separate clinics while allowing for shared administrative services and record storage. Each clinic will have a separate entrance, 23 exam rooms, a procedure room, and an ultra sound imaging room for the pediatric clinic. The exam room clusters will allow for 8-10 physicians and physician assistants to see patients and provide services. The building will sit on approximately 3 acres and offer more than 160 parking stalls.

After selection, Shaheen Beauchamp Builders assisted CMG with the selection of an architect and other design professionals, and interacted with the local utility companies to ensure adequate infrastructure to meet the needs of the modern facility.

Shaheen Beauchamp Builders has successfully completed numerous medical projects for many different physician groups including Gastroenterology Consultants, Carson Urologists Ltd, Skin Cancer and Dermatology Institute, Nevada Health Centers Inc, and Carson Surgical Group.
