Carson City builder awarded contract to renovate Umpqua Bank

Carson City, NV – December 5, 2011 – Shaheen Beauchamp Builders LLC has been awarded the contract to renovate the Umpqua Bank commercial banking center located at 3490 S Virginia Street, Reno NV.

Umpqua Bank, based in Roseberg, OR, took over Nevada Security Bank in March 2010 and the branch location. The renovation of the commercial banking center will bring the new Umpqua Bank corporate brand to the Northern Nevada area. The project will consist of remodeling the building interior to creating a full service branch at the location, adding approximately 2000 square feet of building area, constructing new building facades and install new building exterior finishes. There will also be extensive improvements done to the site to facilitate access and parking for the commercial banking center, in conjunction with the RTC work being performed to widen Moana Lane and ease congestion at the South Virginia Street intersection.

Shaheen Beauchamp Builders LLC was selected as the contractor from a field of eight General Contractors bidding on the project. “We were privileged to be chosen by Umpqua Bank,” said Mark Beauchamp, Shaheen Beauchamp co-owner. “We understand that this will be only the second branch completed with the new Umpqua Bank design.”

Shaheen Beauchamp Builders has successfully completed numerous projects for many different financial institutions. In addition to the project for Umpqua Bank, Shaheen Beauchamp Builders is currently constructing two separate medical office clinics in Carson City and commencing a tenant improvement for a new Italian restaurant in South Reno.
